KYLA MATHIS, Tuskegee University

With [HS]², I always had a leg up compared to my school peers. By the end of the program I had my college essay and letters of recommendation thanks to the support from Nick and Betsy. Thanks to my [HS]² family, I will make my dreams come true by becoming a neo-natal nurse and attending college on a full academic scholarship!

ARLEEN MARTE, University of Pennsylvania

[HS]² is to the reason I had the confidence to apply to my dream school and get into an Ivy League. Being in such a loving environment that not only supported me academically but also emotionally helped me believe in myself and my ability to succeed anywhere I go. I don't know who I would be without [HS]² and the resources they have provided.

MATTHEWS WONDWESEN, Northwestern University

[HS]² helped me get the Gates scholarship which allowed me to go to a fantastic school without worrying about the price. Without Betsy, Annie, Nick, and Todd, I wouldn't have considered college an option. Thanks to [HS]², I was able to unlock my true potential.
