"(HS)² was the program that made me realize I was capable of achievements far beyond what I could have imagined. As the daughter of two immigrant parents, I was the first in my family to be presented with the opportunity of higher education, but I didn't know the first thing about the college application process. From filling out the FAFSA on my own to drafting and revising my personal statement, (HS)² was with me every step of the way, providing guidance I didn't even know I needed. I will be attending Harvard University in the fall, and I can confidently say I would not have dreamed of this outcome without (HS)²'s unwavering support and commitment to my success."

– **Hannah Bui, LA | Harvard University, Full Ride**

"I come from a community that offers very little support for postsecondary success. So many high-achieving students from my school still fall through the cracks. Through my connection with (HS)², though, the opposite happened for me. (HS)² gave me a community that built me up, much like the mountains that rise over the Roaring Fork Valley. More than essay help or activity list edits, it gave me people to lean on during one of the most emotionally draining processes of my life. Having people who truly believed in me made all the difference. I am now committed to attending Dartmouth College next fall, and I wouldn't be attending my dream school without (HS)²."

– **Dai' Juan Williams, TX | Dartmouth College, National Gates Scholarship Recipient**
